# Rittal – The System.

Faster – better – everywhere.

## World's first

The Blue e+ cooling unit series – the ultimate in efficiency.  
Worldwide.

### The principle

- Efficiency – 75% energy saved due to speed-regulated components and heat pipe technology
- Versatility – Suitable for international use due to unique multi-voltage capability
- Longevity – Longer service life of the components inside the enclosure and the cooling unit due to component-friendly cooling
- User-friendliness – Intuitive operation due to touch display and intelligent interfaces

# A revolution in energy efficiency through innovative hybrid technology

## Unbelievably efficient

- Let hybrid technology take your cooling units' energy efficiency to a whole new level
- Active cooling circuit with speed-regulated components for demand-based cooling
- Integral heat pipe for passive cooling. Dissipates heat from the enclosure as soon as the ambient temperature falls below the setpoint

## Transparent efficiency comparisons

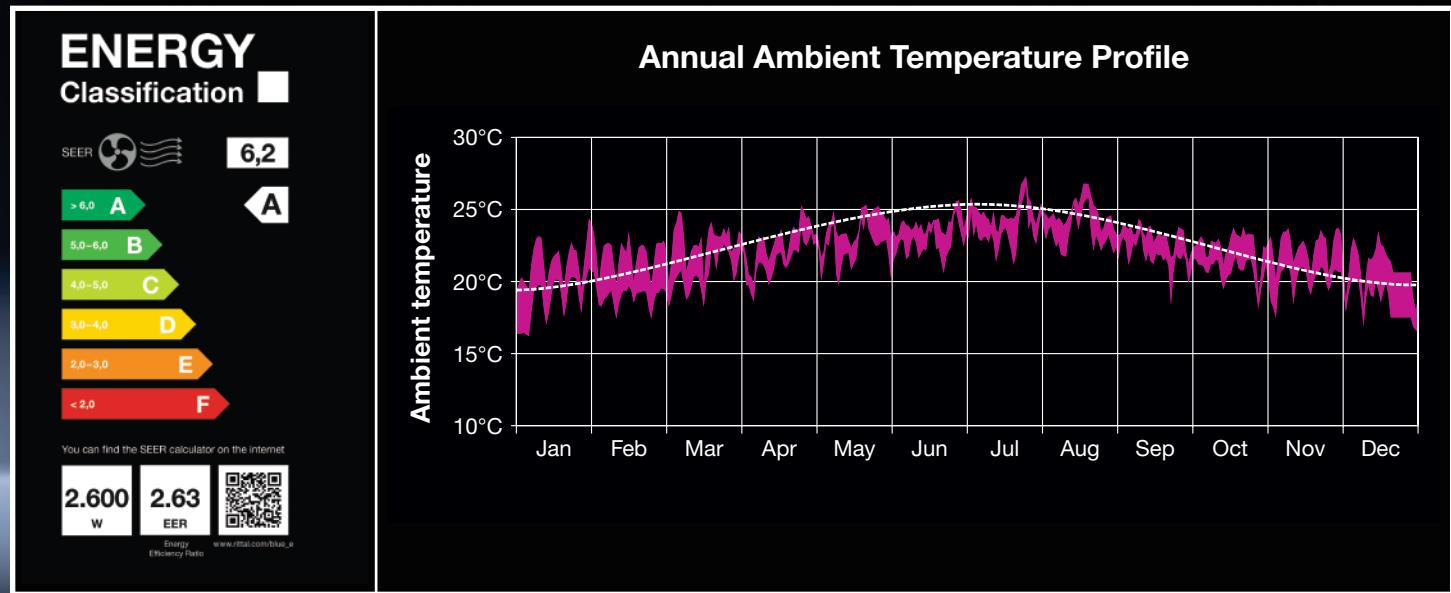

- Energy Efficiency Ratio: The standardized efficiency ratio
- Seasonal Energy Efficiency Ratio: The seasonal efficiency ratio for actual energy consumption

## Amazingly economical

- Energy savings of up to 75%
- Component-friendly cooling for a longer service life
- A constant temperature inside the enclosure is ensured – with three control modes
- High operational reliability

## Easier to calculate

- Determine your energy savings with the efficiency calculator
- TCO calculation includes all costs arising in the product's lifecycle
- Precise amortization calculation

Rittal specifies the SEER to indicate the actual efficiency of a cooling unit, since a precise calculation must also consider the seasonal temperature variation. The standard point for determining the EER does not make allowance for actual fluctuations in hall temperatures.

# Simple operation with touch display and intelligent interfaces

## Get information faster

- Fast device analysis with RiDiag software via the USB interface
- Remote monitoring via Ethernet

## Blue e+ app

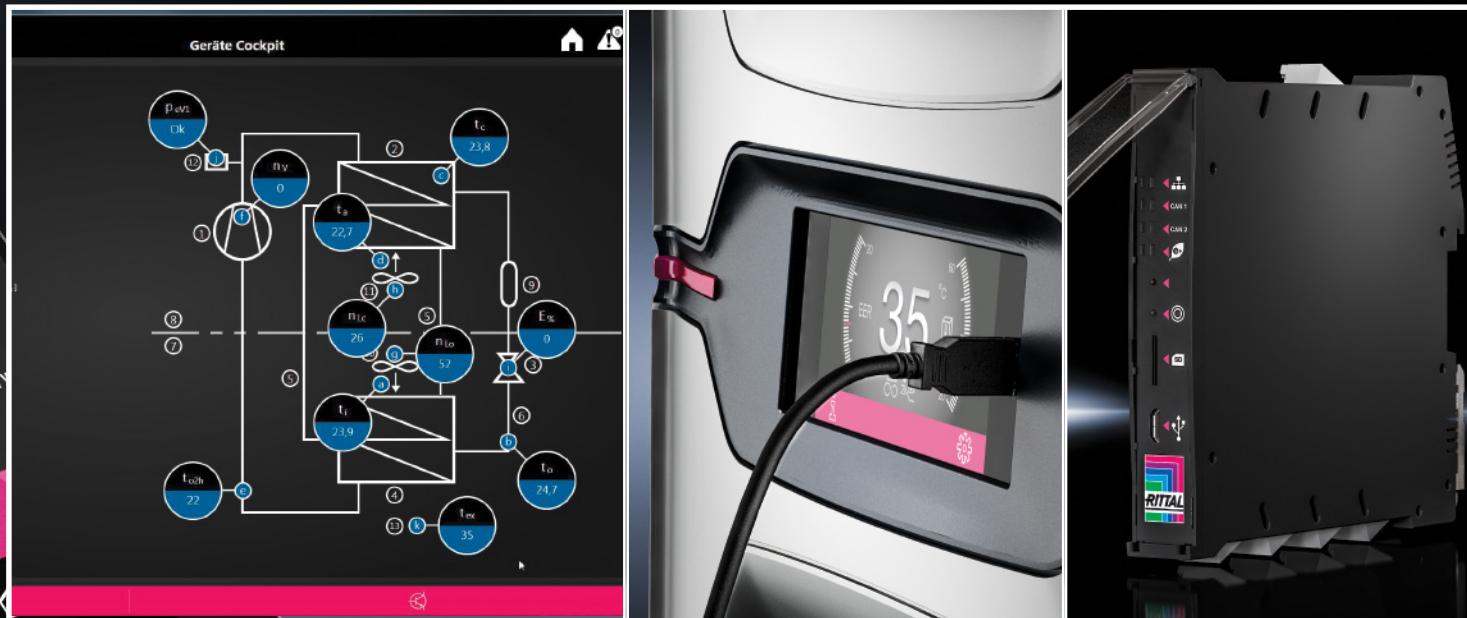

- Contactless information exchange and rapid, direct on-site analysis via a Near Field Communication, NFC, interface
- Simple repair, maintenance and spare parts inquiries may be sent directly via your smartphone
- Save device data directly on the unit

## Easier to operate

- Fast parameterization, data reading and plain-text system messages on the intelligent, multi-lingual, industrial-grade display

## IoT interface

- For linking Blue e+ air conditioning units and Blue e+ chillers to the customer's own monitoring, energy management and/or other data/communication systems
- Analysis and parametrization
- Device data can be supplied in most standard protocols
- Generate your own dashboards and analysis
- Attaches to the top hat rail or to the cooling unit itself

# Versatility through standard assembly

## Easy Assembly

- One version for external mounting, partial internal mounting and full internal mounting
- One mounting cut-out for external mounting, partial internal mounting and full internal mounting in multiple output categories
- Maintenance-friendly, tool-less filter mat replacement

## Rapid Assembly

- Handle for convenient transport and positioning
- Mounting clip as securing aid
- Eyebolts for easy mounting

## Maximum flexibility with unique multi-voltage capability

- One device for all voltages and networks, suitable for worldwide use thanks to inverter technology:
  - 110 – 240 V, 1~, 50 – 60 Hz
  - 380 – 480 V, 3~, 50 – 60 Hz
- International approvals and certifications:
  - cULus Listed
  - EAC
  - TÜV Nord GS

# Blue e+ roof-mounted air conditioner

## Benefits:

- Average 75% energy savings due to speed-regulated components and heat pipe technology
- Suitable for international use due to a unique multi-voltage capability
- Longer service life of the components inside the enclosure and the cooling unit due to component-friendly cooling
- Intuitive operation due to touch display and intelligent interfaces

## Temperature control:

- e+ controller (factory setting +35°C)

## Protection category IP to IEC 60 529:

- External circuit IP 54 with pleated filter
- Internal circuit IP 54 with pleated filter

## Note:

- Only suitable for mounting on enclosures with minimum dimensions (W X D)  
800 x 600 mm

## Approvals:

- UL + cUL, -FTTA
- UR + cUR -ACVS2/8
- Tested safety GS

# Accessories

## Filter mats

Rittal cooling units are low-maintenance and are supplied without filter mats. Filter mats may be used for extreme conditions.

### Benefits:

- Temperature-resistant from -40°C...+80°C

### Material:

- Open-celled polyurethane foamed plastic
- Thickness: 10 mm

### For Blue e+ air conditioners

To fit model No.	Packs of	Model No.
3185.830	3 pc(s).	<b>3285.800</b>
3186.930/ 3187.930/ 3188.940/ 3189.940	3 pc(s).	<b>3285.900</b>

## Metal filter

Particularly when cooling units are used in dusty and oily environments, it is advisable to use washable metal filters. If air or steam condenses on the metal surfaces, any particles present will adhere to the metal, and can easily be washed out with water or grease-dissolving solvents.

### Material:

- Aluminum
- Thickness: 10 mm

### For Blue e+ air conditioners

To fit model No.	Packs of	Model No.
3185.830	1 pc(s).	<b>3285.810</b>
3186.930/ 3187.930/ 3188.940/ 3189.940	1 pc(s).	<b>3285.910</b>

## Temperature sensor

NTC sensor to regulate Blue e+ cooling units according to an individual measurement point within the enclosure (control based on an external sensor).

### Supply includes:

- External sensor with connection cable  
(length 2.5 m)

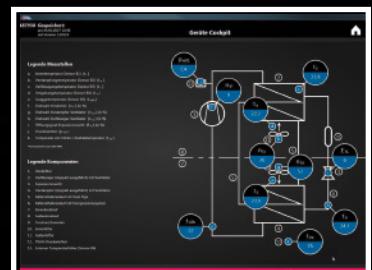

Packs of.	1 pc(s)
Model No.	<b>3124.400.</b>

# Accessories

## RiDiag

Software for the parameterization, diagnosis and analysis of Rittal cooling units.

<b>Model No.</b>	<b>3159.300</b>
For	Blue e+ chillers Blue e+ air conditioners
Design	RiDiag III
Product-specific scope of supply	Full, downloadable version in English and German. Release of additional functions with chargeable license under Model No. 3159.300
Packs of	1 pc(s).

## IoT interface

The IoT interface is used to link Rittal components such as Blue e+ cooling units, Blue e+ chillers, smart monitoring systems etc. to the customer's own monitoring and/or energy management systems. Data may be integrated both horizontally and vertically into data collectors and processors, to allow the long-term logging and evaluation of device data, statuses and system messages.

### Communication protocols:

SNMPv1, SNMPv2c, SNMPv3, OPC-UA, Modbus/TCP, CAN bus, Profinet

### Network protocols:

Telnet, SSH, FTP, SFTP, HTTP, HTTPS, NTP, DHCP, DNS, SMTP, Syslog, LDAP, RADIUS

### Benefits:

- The IoT interface is middleware, whose interfaces allow a variety of devices and systems to communicate with one another. The data can then be forwarded into superordinate systems.

### Material:

- Plastic to UL 94-V0

### Color:

- RAL 7016 Anthracite grey

### Protection category IP to IEC 60529:

- IP 20

### Supply includes:

- Connection cable (1 m) with RJ 45 connector
- Angle bracket for Blue e+ cooling unit

### Assembly instruction:

- The IoT interface can be secured on a 35 x 7.5 top hat rail to DIN EN 60 715 using a springloaded metal clip, or to the rear of a Blue e+ cooling unit using the angle bracket.

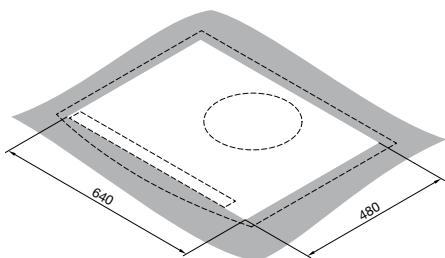

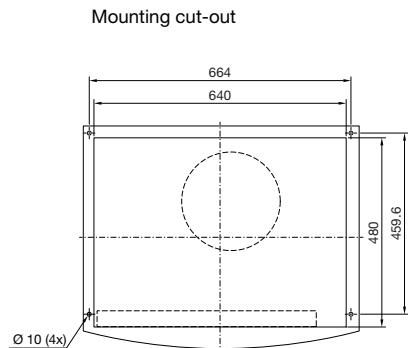

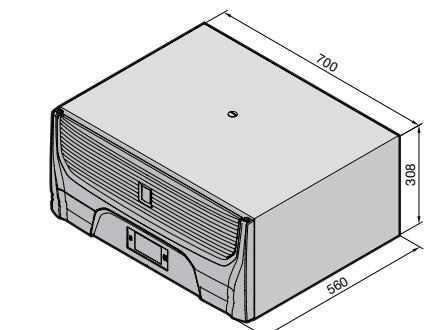

<b>Model No.</b>	<b>3124.300</b>
W X H X D in. (mm)	0.7 x 4.6 x 4.72 (18 x 117 x 120)
For	Blue e+ cooling units, Blue e+ chillers, Smart monitoring system, CMC III sensors
Operating temperature range °F (°C)	+32°F...+158°F (+0°C...+70°C)
Protocols	SNMP, OPC-US, Modbus/TCP, CAN bus, Profinet
Interfaces	1 x Micro USB type B (device) for USB 2.0 1 x Micro-SD memory card slot for SD 2.0 1 x USB 2.0 high-speed functions (EHCI) 1 x acknowledgement button 1 x 3-pole push-in spring connection terminal for NTC sensor 2 x RJ45 jack for RS 485 interface (climate control unit interface)
Network interface	E 802.3 via 10BASE-T, 100BASE-T and 1000BASE-T
Type of electrical connection	3-pole push-in spring connection terminal (24 V DC)

# Blue e+ air conditioners

## Technical details

### Blue e+ wall-mounted air conditioners

**SK 3186.630, SK 3186.930, SK 3187.630, SK 3187.930, SK 3188.640, SK 3188.940, SK 3189.640, SK 3189.940**

**Mounting cut-out**  
External mounting, partial internal  
mounting, internal mounting for door,  
rear and side panel, W ≥ 600 mm

**Mounting cut-out**  
External mounting rear and side panel,  
W + 500 mm

### Important installation instructions for full internal mounting

- Not generally possible for 4.2 and 5.8 kW
- For 600 mm wide enclosure doors, please note: Move the cut-out towards the door hinge by 25 mm, and dismantle the tubular door frame

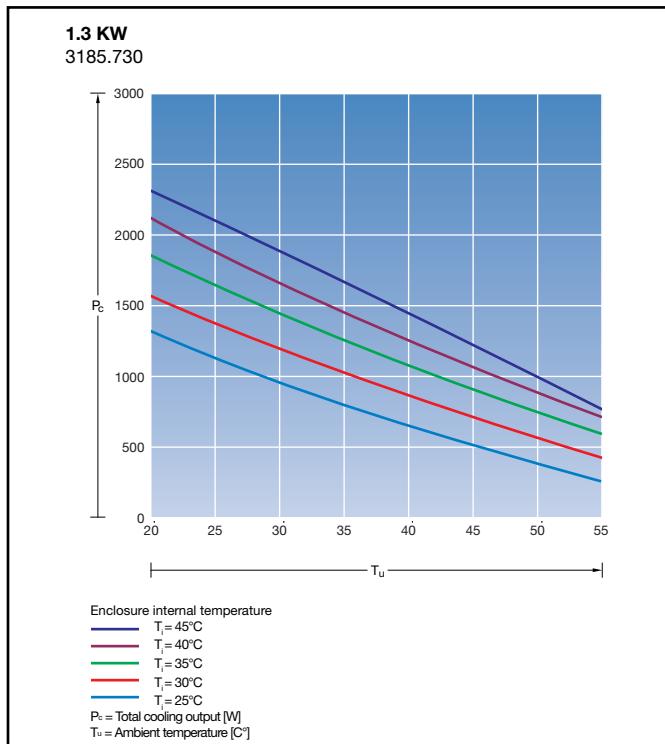

### Important installation instructions for external mounting on 500 mm deep enclosures

- Partial internal mounting and full internal mounting not supported
- External mounting only possible with mounting cut-out for 500 mm deep enclosures
