

# Rittal – The System.

Faster – better – everywhere.

The screenshot displays the RiZone monitoring software interface. On the left is a tree view of the system hierarchy, including components like 'Rittal', 'Haiger', 'RiMatrixS', and 'Container1'. The main area contains four charts: 'Temperatur' (Temperature), 'Cooling', 'Power', and 'Pressure'. A 'Live messages' window at the bottom shows a list of monitoring events with columns for timestamp, elapsed time, process, owner, state, and description. A 'Component' panel on the bottom left shows details for component 'QM-T'.

## DK 7990.308

# RiZone Appliance IP node licence

State: 27/09/2024 (Source: rittal.com/com-en)

# DK 7990.308 - RiZone Appliance IP node licence

The flexible RiZone licence model allows optimum adaptation to any project size, while at the same time allowing the opportunity to grow with the data centre.

## Features

|                           |                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| Product description       | Das flexible RiZone-Lizenzmodell ermöglicht eine optimale Anpassung an jede Projektgröße und bietet gleichzeitig die Möglichkeit, mit dem Rechenzentrum zu wachsen. Die Volumenlizenzen für die IP-Knoten sind gestaffelt von 10 bis 1000 Knoten und erlauben eine genaue Anpassung an die Größe des Rechenzentrums. Für jede zu erfassende aktive Komponente oder andere SNMP-fähige Komponenten wird eine Knotenlizenz benötigt. |
| For no. of IP nodes       | 100                                                                                                                                                                                                                                                                                                                                                                                                                                |
