## SK 3239.124 - TopTherm Filter Fan Units

Complete fan unit for tool-free mounting on surfaces. Air throughput from 11.77 - 529.72 cfm, protection category IP 54 as standard.

#### Features

Model No.	SK 3239.124
Version	wall-mounted
Product description	Filter fans with diagonal fan technology are more pressure-resistant and produce more constant air performance. The diagonal outflow direction ensures a more uniform heat dissipation from the enclosure.
Product modification	The cover for the connection clamp has not been part of the TopTherm fan-and-filter units since May 2024. In testing, it proved not to be necessary to meet the standard, and affects neither function nor operational reliability.
Color	RAL 7035
Supply includes	Complete unit ready to install, including fleece filter mat
Fan	Axial, DC motor
Unimpeded air flow (with fleece filter)	with DC: 100 m³/h
Unimpeded air flow (with folded filter)	with DC: 110 m³/h
Air throughput with outlet filter incl. fleece filter mat (quantity x order number)	1 x 3239200: 74 m³/h 2 x 3239200: 84 m³/h
Rated operating voltage	24 V (DC)
Rated power Pel	with DC: 5.7 W
Rated current max.	with DC: 0.24 A

### Features

Width: 204mm Height: 204mm Width: 8.03 ″ Height: 8.03 ″
90 mm 3.54 ″
Width of opening: 177mm Cut-out height: 177mm Width of opening: 6.97 ″ Cut-out height: 6.97 ″
IP 54 with fleece filter/folded filter IP 55 with folded filter and absorber mat IP56 with fleece filter/folded filter and hose-proof hood
Type 12 with fleece filter/folded filter Type 3 Type 3R Type 4 Type 4X with fleece filter/folded filter and hose-proof hood
Miniature circuit-breaker/fuse: 2 A
A folded filter can optionally be used to increase the air throughput (see characteristic curve). This can be used with both the filter &
roof-mounted fans and the exhaust filters. For the 3237.XXX filter fan, the electrical connection is made via 2 individual wires (length approx. 300 mm) on the unit, for all other filter fans, it's made via a spring-loaded terminal
For the 3237.XXX filter fan, the electrical connection is made via 2 individual wires (length approx. 300 mm) on the unit, for all other
